**Instructions:**

- To print a specific track, enter the tile numbers in the 'Page' field in your printer settings. For example:

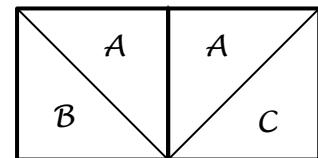

2,2,2,2,3,3,3,3,11

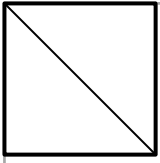

This results in a rounded square.

- Print at 100%. Do not scale.

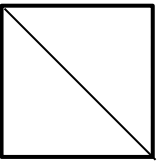

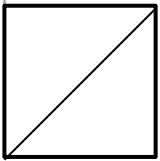

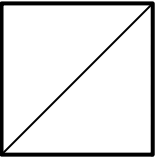

Each tile (200x200 mm) fits either A4 or US letter paper.

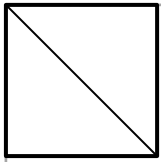

- Cut along the dashed lines.
- If you like, add symbols to the corner triangles like domino tiles. This helps rebuild your track later on. For example:
